

The MapMate Book

Contents

Conventions and Layout

Chapter 1: Installing and Setting Up MapMate

Installation.....	1
Setting Up MapMate.....	3
Updating and Reinstalling.....	5

Chapter 2: Preparing for Action

Things You Need to Know.....	1
Working Through This Book.....	1
An Introduction to Databases.....	2
Guaranteeing Data Uniqueness.....	3
The Joy of Unique Identifiers.....	4
The Training Dataset.....	6

Chapter 3: Data Entry

Introduction.....	1
Getting Started.....	1
Entering a Taxon.....	3
Using scientific names.....	3
Using vernacular names.....	4
Using BRC codes.....	5
Entering Quantities.....	5
Actual counts / numeric estimates.....	5
Recording separate sexes.....	6
Abundance / cover indicators.....	6
Defining a Stage.....	7
Entering Site.....	8
Site Name.....	10
Grid Ref.....	10
Vice-county and Admin Area.....	11
Habitat.....	12
Description.....	13
Using your own Habitat definitions.....	14
Using an existing Site in your Record.....	14
Lookup by name.....	15
Lookup by grid reference.....	15
A Quick Way to Enter Sites.....	16
Entering Dates.....	16
Date Ranges.....	17
Defining Status.....	18
Recorder and Determiner.....	18
Adding a Recorder.....	19
The Determiner.....	19

Selecting a Method.....	20
Entering a Reference.....	21
Author.....	22
Year.....	22
Page Ref.....	22
Title.....	22
Selecting a Reference.....	23
Entering a Comment.....	23
Structuring Comments.....	23
Minimise your typing effort; or, don't click Save yet!.....	25
Keeping default entries for your current editing session.....	25
Oops! I really didn't mean to do that.....	26
Keeping default entries for permanent use.....	27
Setting up your own shortcuts.....	28
Shortcuts are not just for Taxa.....	28
Getting rid of Training List entries.....	29
General validation checks.....	29
Taxon validations.....	30
Taxon.....	31
Stage.....	31
Date.....	31
VC.....	31
Placed by.....	32
Warning.....	32
Comment.....	32
Taxon validation in action.....	32
Amending Taxon validations.....	32
In conclusion.....	33

Chapter 4: Reporting and Maintaining Data

Introduction.....	1
Using the Training Dataset.....	2
Simple Ad Hoc Queries: Listing Records.....	2
The Data Browser.....	3
Sorting and Searching.....	3
Navigation.....	5
Modifying and Removing Records.....	5
Back to Removing Records.....	8
Getting Your Data Out Of MapMate.....	9
Another Way to Transfer Data.....	10
Changing the Filters on Reported Data.....	12
Simple Ad Hoc Queries: Other Types of Data, Other Ways of Showing Data.....	13
Listing Sites.....	13
Listing Taxa.....	13
Events.....	14
Quick Reports.....	15
Stock Queries and the Analysis Menu.....	15
Browsing Records: an Introduction.....	16
Getting Parameters to Work for You.....	18
Browsing Records: Other Useful Facilities.....	19
Browsing Other Data.....	19
Other Groups of Queries.....	21
Tailor-made Reports for Records: the Easy Way.....	22
User Queries: Tailor-made Reports the Hard Way.....	23
A Bleak Introduction (but it gets better later).....	23
Some Good News: The Kindness of Strangers.....	25

How to Create a User Query from Someone Else's Copy.....	26
Anatomy of a SQL Query.....	27
Using an Existing Query as a Template for A New One.....	30
Analysing a Crosstab Query.....	34
Creating a New Crosstab Query from Scratch.....	36
In Conclusion.....	37

Chapter 5: Exchanging Data With Others

Introduction.....	1
Organising Your Community of Data Sharers.....	2
A Strict “Star” Network.....	4
Partitioning Data Exchanges.....	5
One-way Street or Two-way Street?.....	7
Running a Sync Exchange.....	8
Sending Data.....	9
Receiving Data.....	15
More on Syncing.....	17
Your Default Partner.....	17
Resending a Problem Sync.....	18
Resending a Complete Data Set.....	18
Preventing Records from Being Exchanged.....	18
Missing Data Requests.....	19
Special Filters.....	20
Text Import.....	21
When Is Text Import Appropriate?.....	21
The Text Import File Format.....	22
Running the Import Process.....	27
Export / Import with other MapMate Users.....	31
Web-based Data Feeds.....	31
Validating Data.....	33
Stock Queries Provided by MapMate.....	34
More Useful Queries.....	35
The NBN Data Cleaner.....	35

Chapter 6: Backup and Recovery

Introduction.....	1
The MapMate Backup.....	1
Restoring Data from a MapMate Backup.....	3
Backing Up Under Windows.....	4
Recovery and Reinstallation.....	7
Windows and MapMate still running; MapMate data files lost or damaged.....	7
Windows running; MapMate (or one of its components) will no longer run.....	7
Windows, hard drive or PC irrecoverable.....	8
Preventive Maintenance: Compacting the MapMate Database.....	8

Chapter 7: Maps and Atlases

Introduction.....	1
Defining a Base Map.....	3
Setting up an Atlas.....	5
Exploring the Atlas.....	8
Navigating the Taxon List.....	8
Navigating the Map Surface.....	8
Drilling Down to Detail.....	9
Modifying an Atlas.....	13

Carrying Out Atlas Editing.....	13
Making Basic Changes.....	14
Age-banding Data.....	17
Adding Adornments.....	20
Coincidence Mapping.....	26
More on Base Maps.....	29
Adding More Topographic Detail.....	29
Mapping a Custom Area.....	32
Adding An Image.....	33
Making Use of the Image-based Map.....	37
More Ways to Refine Atlases.....	38
Custom Age Banding.....	38
Custom Mapping Categories.....	40
Suppressing Null Records.....	43
Adding Time-series Graphs.....	43
Special Maps.....	45
Map Housekeeping.....	49
Deleting Maps.....	49
Copying Maps.....	49
Refreshing and Reloading Maps.....	49
Rebuilding Maps.....	50
Map Export.....	50
Printing Maps.....	50
Copying Maps.....	53

Chapter 8: Schedules and Catalogues

Introduction.....	1
Doing it the Wrong Way.....	1
Installing the Schedules Patches.....	2
What Schedules Will Do For You.....	2
Anatomising a Schedule.....	3
Schedules.....	3
Schedule Categories.....	3
Schedule Taxa.....	4
Creating a Schedule.....	5
The Schedule.....	5
The Schedule Categories.....	5
The Schedule Taxa.....	6
Schedule-based Record Queries.....	7
Making a Schedule-based Filter.....	8
A Query to Browse Filters.....	10
Customising the County Rare Plant Register Schedule.....	10
Catalogues.....	11
Setting Up a Catalogue.....	12
Catalogue-based Queries.....	13
Catalogue-based Filters.....	13
Sharing Schedules and Catalogues.....	13

Chapter 10: Keeping up to Date and Getting Help

Updates.....	1
Registering on the MapMate web site.....	1
Software Updates.....	2
Patches.....	4
Getting Help.....	7
How Do I...?.....	7

Technical Problems.....	8
-------------------------	---

Appendix A: The MapMate Data Model

Introduction.....	1
Packaging of MapMate Data.....	2
Table Relationships.....	3
Preliminaries: Data Conventions.....	3
Records and Related Data.....	4
Taxa.....	5
Taxon Validations.....	6
Events.....	6
Photos.....	7
Tasks.....	7
UKMatrix.....	8
Table Content.....	8
Data Types.....	8
Special Fields.....	9
Custom Datasets.....	9
Special Views.....	10
Main tables and user-editable lookups.....	11
System lookups.....	16
System internal files.....	20

Appendix B: Useful Queries

Introduction.....	1
Records.....	1
Sites.....	7
Other Data.....	8

Appendix C: Glossary

Chapter 9 (“Using MapMate with Other Applications”) is in preparation.

Acknowledgements

This book owes a debt to many people, not least those who have had to brave MapMate and suffer at my hands in courses and mentoring sessions over nearly a decade. My thanks to all of them, many of them with little background in computing, for their perseverance, forbearance and ability to ask the right questions.

Special mention must go to:

- the late Pete Selby, former Volunteers Officer of the Botanical Society of the British Isles (BSBI) and my predecessor as South Hampshire recorder, for getting me started on MapMate and for his efforts to see it turned into a potent tool for the Society.
- Bob Ellis, the present Volunteers Officer of the BSBI, for guidance and for putting up with my badgering and occasional grumbles over the years.
- Martin Harvey of the Open University for his ability to deliver information with the utmost clarity and calmness, which you can now experience for yourselves in his excellent set of MapMate training videos. I am grateful to him and to his fellow-lepidoperist Ian Thirlwell for knowledge gained in conversation and during joint training sessions; and we are all indebted to both of them for the time they dedicate to supporting users on the Yahoo! MapMate forum and the resources they have freely made available.
- Polly Spencer-Vellacott, Welsh Officer of the BSBI, for several pearls of wisdom which I've shamelessly purloined; and Jim McIntosh, Scottish Officer, as well as to Scottish Natural Heritage, for making the writing of this book possible; and to him and Angus Hannah, his acting replacement during Jim's trip to remote parts, for support during its development.
- the team of people who have reviewed various chapters and provided advice and comments. Any faults remaining are mine alone, and I will welcome comments and corrections. You will see at the head of each chapter where to send them.
